

CubiCacheModule

Phase-Implementation

Updated Jun 30, 2011 by [rockys...@gmail.com](#)

Cubi Cache Module

Cubi cache management allows system admin to check current system cache usage, clear cache and turn on/off cache.

Manage System Cache

The Cache Management page allows system admin to

- Turn on and off cache by clicking on the "On/Off" button
- Refresh cache by clicking "Reload" button
- Clear selected module cache by clicking "Delete" button
- Clear all cache by clicking "Clear All" button

The following screenshots demonstrate two states when cache is turned on and off.

Cache is turned on

The screenshot shows the 'Manage System Cache' page in the Cubi System Administration interface. The page title is 'Cache Management'. Below the title, there is a description: 'System cache is a component that improves performance by transparently storing data such that future requests for that data can be served faster.' Below the description, there are four buttons: 'On', 'Reload', 'Delete', and 'Clear All'. The 'On' button is highlighted with a blue background. Below the buttons, there is a table with the following columns: 'Name', 'Space Usage', 'Cache Items', and 'Action'. The table is divided into three groups: 'Group: Application Data', 'Group: System Metadata', and 'Group: Compiled Template'. The 'On' button is highlighted with a blue background.

| | Name | Space Usage | Cache Items | Action |
|---------------------------------|----------|-------------|-------------|--------|
| Group: Application Data | | | | |
| <input type="checkbox"/> | Common | 31.1 KB | 19 Items | |
| <input type="checkbox"/> | Help | 3.1 KB | 18 Items | |
| <input type="checkbox"/> | Menu | 24.9 KB | 79 Items | |
| <input type="checkbox"/> | User | 90.1 KB | 51 Items | |
| Group: System Metadata | | | | |
| <input type="checkbox"/> | Metadata | 325.1 KB | 181 Items | |
| Group: Compiled Template | | | | |
| <input type="checkbox"/> | Default | 154.0 KB | 64 Items | |
