

CubiEventLogModule

Phase Implementation

Updated Jun 30, 2011 by [rockys...@gmail.com](#)

Event log module

Event log allows administrator to manage user event logs which are logged by EventLog service. Log can be cleared and exported from the page.

Check all event logs

Cubi System > Administration > Event Logs > Manage EventLog

admin <admin@yourcompany.com>

Application Menu

- Users
- Roles
- Modules
- Menu
- Email
- Help
- Event Logs**
- Manage EventLog

Help Help Center
