CalendarApplication
Cubi Calendar Application
Featured

Updated Mar 14, 2014 by rockys...@gmail.com

Introduction

Cubi Calendar is an open source calendar and event management application released under GPL V3 license

Installation

Download the source from SVN. https://openbiz-cubi.googlecode.com/svn/trunk/apps/calendar

As Calendar is a Cubi application, you can copy the calendar folder into cubi/modules/. The load Calendar into Cubi platform with command
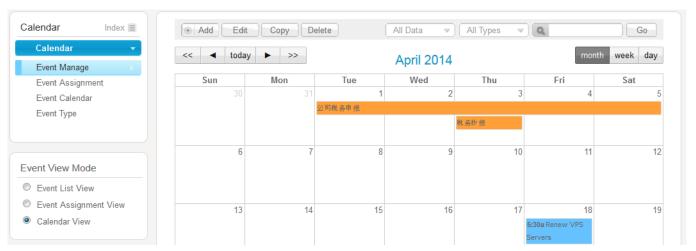

```
# cd cubi/bin/tool/
# php load_module.php calendar
```

Launch Cubi in your browser, you should see a new tab called "Calendar" in the application tab area. Click "Calendar" tab to start exploring Calendar application.
